Journal of Pharmacokinetics and Biopharmaceutics, Vol. 18, No. 6, 1990

Author Index to Volume 18

Al-Banna, Mahir K., 279, 347
Anderson, Sharon, 259

Bartkowski, Richard R., 335
Bernareggi, Alberto, 525
Bevill, Richard F., 71
Böttger, W. M., 1
Bredberg, Ulf, 103
Buniva, Giuseppe, 525
Bührer, Michael, 175

Chang, Ih, 145, 279
Chung, Youn Bok, 313
Cometti, Alfonso, 525
Couet, William, 17

Danese, Antonio, 525
Danhof, Meindert, 459
de Lannoy, Inés A. M., 561
de Vries-Nijboer, G. W., 1
Duffee, Nicole E., 71

Ellinwood, Everett H., 89
Epstein, Richard H., 335

Fourtillan, Jean-Bernard, 17
Fraser, Sharon, 209, 235
Frey, Brigitte M., 381
Frey, Felix J., 381

Godfrey, K. R., 459
Graves, David A., 145, 279
Guedes, Jean-Paul, 17
Gupta, Samir K., 89

Hanano, Manabu, 313
Harashima, Hideyoshi, 313
Hashida, Mitsuru, 449
Hauck, Walter W., 259
Heatherly, Douglas G., 89
Hirayama, Hiroki, 561
Huang, May-Lynn, 401

Iga, Tatsuji, 313

Jusko, William, J., 189, 401

Kakutani, Toshiyuki, 449
Kanba, Masaharu, 545
Karlsson, Mats O., 103, 293
Kelman, Andrew W., 347
Koehn, Sylvia, 381
Koritz, Gary D., 71
Kurz, Gerhart 35

Lindberg-Freijs, Agneta, 293
Looby, Michael, 501

Maitre, Pierre O., 161, 175
Mandema, Jaap W., 459
Matis, J. H., 589
McLeod, Lyndsay, 209, 235
Meijer, Dirk K. F., 1, 35
Miyauchi, Seiji, 313
Mol. Wim E. M., 35
Morgan, Denis J., 121
Muir, Keith, 279
Müller, Michael, 35

Zeugin, Tanja, 381
Zimmermann, Arthur, 381

Subject Index to Volume 18

1-anilino-8-naphthalene sulfonate (ANS), 313
Absorption, 1
AIC, 545
Albumin concentration, 209
Albumin-facilitated hepatic uptake, 121
Alfentanil, 161
Aperiodic analysis, 459

Basolateral and luminal membranes, 561
Benzodiazepine, 89
Biliary excretion, 423
Binomial tests, 259
Bioavailability 483
Bioavailability estimation, 103, 293
Bioequivalence, 137, 259
Biphasic responses, 459
Bootstrap, 361
Buffers, 1

Carrier-mediated transport, 35
Cation, 501
Cationic drugs, 35
Cefatrizine, 17
Cefixime, 545
Clinical pharmacokinetics, 525
CNS effect, 89
Collinearity, 361
Compartmental models, 589
Computer simulation, 347
Computer-driven infusion scheme, 175
Computers, 335
Concentration–time curve, 589
Convolution, 483
Correction for sampling, 423
Cyclosporine, 381
Cyclosporine A, 293
Cytosolic protein, 313

Dark Agouti rat, 381
Dispersion model, 209, 235
Dispersion ratio, 449
Dose dependencey, 313, 401
Dose response, 279
Drug infusions, 235
Drug interactions, 35

Effect compartment, 175
Electroencephalogram, 459
Enalapril, 561
Enalaprilat, 561
Enterohepatic circulation, 545
Enzyme inhibition, 235
Erlang transit times, 589
Evaluation of parameter estimates, 161
Experimental design, 347
Experimental renal failure, 71
Extended release, 145

FILT, 545

Global moment, 545
Glucocorticoid receptor, 189
Glycopeptide antibiotics, 525

Hepatic distribution, 35
Hepatic models, 209, 235
Hepatic transport, 313
Hepatic uptake, 121
Hepatobiliary elimination, 35
Heptabarbital, 459
HPLC, 423, 525
Hydralazine, 279
Hydroxylation, 381
Hypothesis testing, 137

Individual components, 525
Influx and efflux clearances, 561
Interconversion, 401

0090-466X/90/1200-0615$06.00/0 © 1990 Plenum Publishing Corporation

Intraindividual variability, 103
Intrinsic clearance, 449
Intrinsic clearances for formation, 423
Iopanoic acid hepatic uptake, 121

Kidney, 381
Kinetics-lipophilicity relationship, 525

Linear system theory, 483
Liver, 381
Liver metabolism, 209, 235
Local moment, 545
Local perfusion system, 449
Lorazepam, 89

Mass transport *in vitro*, 1
Mathematical modeling, 483
Mean elimination time, 449
Mean residence time, 589
Metabolism, 423
Metabolite kinetics, 561
Michaelis-Menten elimination, 401
Michaelis-Menten equation, 17
Models, 335
Modeling, 189
Moment analysis, 401
Monte Carlo simulations, 103
Multiplicity in carrier proteins, 35

Neuromuscular relaxants, 335
Nonequilibrium condition, 449
Nonlinear estimation, 361
Non-linear mixed effects model (NONMEM) 145, 279
Nonlinear pharmacokinetics, 313, 501
Nonhomogeneous compartments, 589
Normal volunteers, 145
Numerical deconvolution, 483

Organic anions, 313
Organic cations, 35
Oxazepam, 423
Oxazepam glucuronides, 423

Pancuronium, 335
Parameter estimation, 347
Perfusate flow, 209
Peripheral elimination 449
*p*H-partition model, 1
Pharmacodynamic modeling, 175
Pharmacodynamics, 189
Pharmacokinetic modeling, 71, 103, 175, 361
Pharmacokinetic-pharmacodynamic model, 89, 459
Pharmacokinetics, 145, 293, 335
Physiological model, 561
Physiological modeling of drug and metabolite, 423
Plasma, 293
Population pharmacokinetics, 161, 347
Power, 137
Prediction performance, 161
Prednisolone, 189, 401
Prednisone, 401
Preformed and generated metabolite, 561
Protein binding, 121
Pseudo steady state, 175

Rat liver, 209, 235
Recirculating perfused mouse liver, 423
Recirculatory pharmacokinetics, 545
Rectal perfusion, 1
Renal metabolism, 561
Residence time distribution, 209, 235
Retrograde perfusion, 235

Sample size, 137
Saturable tissue binding, 313
Saturation of nonrenal clearance, 501
Semi-Markov model, 589
Semi-simultaneous drug administration, 103
75/75 rule, 259
Sodium benzoate, 1
Statistical moment analysis, 449
Saturable absorption rate, 17
Saturable tissue binding, 313
Steady-state distribution volume, 449
Structure-pharmacokinetic relationship, 35
Surgical electrocoagulation, 71

Taurocholate hepatic uptake, 121
Teicoplanin, 525
Thiamine, 501
Thiopental, 175
Tissue distribution, 401
Train-of-four stimulation, 335
Transmembrane clearance and barrier, 423
Transport barrier, 561

Tubular reabsorption, 501
Tubular secretion, 501
Two-compartment perfusion model, 449
Tyrosine aminotransferase, 189

Uremic patients, 293

Viability, 423
Vitamin, 501
